

90% mistakenly assume that firewall and VPN are sufficient as protection.  
You too?

CryptoTec Zone protects your digital property from hackers, manipulation and espionage!

## What CryptoTec Zone can do

### CryptoID

Generation of a forgery-proof, unique CryptoID and therefore protection against identity theft and fraud. Your native electronic identity card.

### CryptoTec Messenger

Bug-proof end-to-end encrypted communication via the chat system integrated in CryptoTec Zone for the fastest exchange of information.

### CryptoTec Transfer

Encrypted data transfer for files of any size even over unstable and unprotected Internet connections such as unsecured hotel WiFi, GPRS or satellite.

### CryptoTec Workroom

Closed User Groups for collaborative working on files via CryptoSync. The highly secure, always protected workplace.

### SOON: CryptoTec Conference

PKI-based high secure video conferencing for professional bearers of secrets such as notaries.

### SOON: CryptoTec Pay

Forgery-proof and autarkic payment solution (e.g. for the sports betting section and the bank sector with customer cards and e-money).
