

SCAN - PAY - REFUND  
anytime  
anywhere  
worldwide

the  
**ALL-IN-ONE**  
solution for  
entertainment  
platforms

## CryptoTec Pay

Enables you instantly to accept worldwide incoming Bitcoin-payments.

Your customer transfers the money into his existing client account via scan with any wallet solution.

Borderless and blockchain-based.

## CryptoTec Pay Wallet

Your customer scans the QR code and a digital contract is issued, the payment is confirmed by an automated digital receipt.

Your customers winnings are credited instantly into his CryptoTec Pay Wallet (opt. your white label seamless wallet).

All this without any complicated registration, login or password - all handled by the CryptoTec PKI - the perfect Blockchain PKI.

Secure Access to Blockchain

## Why CryptoTec?

CryptoTec PKI -  
The perfect Blockchain PKI

CryptoTec has its roots in the payment and sports betting industry - The founders developed high secure and disruptive technologies.

Year 2003: innovative development solution „live betting“ for land-based & online betting.

Year 2007: innovative development of a „live self service terminal“.

CryptoTec customer's are on the leading edge in a business environment with millions of high performance transactions. The CryptoTec founders have more than 25 years of expertise particularly in developing and implementing security measures for land-based, live self-service terminals and online betting. This expertise which is applied on a daily basis and successes in combating thousands of system attacks has resulted in a major competitive market share.
